

tions and controls continue with respect to material and equipment subject to the agreement.

Ukraine is a nonnuclear weapon state party to the Treaty on the non-proliferation of Nuclear Weapons (NPT). Following the dissolution of the Soviet Union, Ukraine agreed to the removal of all nuclear weapons from its territory. It has a full-scope safeguards agreement in force with the International Atomic Energy Agency (IAEA) to implement its safeguards obligations under the NPT. Ukraine was accepted as a member of the Nuclear Suppliers Group in April 1996, and as a member of the NPT Exporters Committee (Zangger Committee) in May 1997.

I have considered the views and recommendations of the interested agencies in reviewing the proposed agreement and have determined that its performance will promote, and will not constitute an unreasonable risk to, the common defense and security. Accordingly, I have approved the agreement and authorized its execution and urge that the Congress give it favorable consideration.

Because this agreement meets all applicable requirements of the Atomic Energy Act, as amended, for agreements for peaceful nuclear cooperation, I am transmitting it to the Congress without exempting it from any requirement contained in section 123a. of that Act. This transmission shall constitute a submittal for purposes of both sections 123b. and 123d. of the Atomic Energy Act. My Administration is prepared to begin immediately the consultations with the Senate Foreign Relations and House International Relations Committees as provided in section 123b. Upon completion of the 30-day continuous session period provided for in section 123b., the 60-day continuous session provided for in section 123d. shall commence.

WILLIAM J. CLINTON,

THE WHITE HOUSE, May 6, 1998.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on International Relations and ordered to be printed (H. Doc. 105-248).
